Last Word on FIFA 20

The FIFA 20 Scoring System

We all know that you can't rush your first touch. Instead, go for it and drag the ball with your feet until the perfect moment strikes. In FIFA 20, we've made first touches even easier. Selected through the new improved Last Word on First Touch system, you'll be able to go for it before the ball arrives - if you play the move right and get the timing right, the moment will come with the perfect touch.

Realistic Defenses

Play with the opposition defense via Real Player Motion Technology to understand how they stop attacks at every turn. Whether it's through the new Tactical Defenses that react to every action, or using the new Personalized Defense that allows you to tweak exactly how your team defends, FIFA 20 is the most authentic experience of defense, handling and behavior. Save the Moment

Picking and passing in a crowded box is a dangerous business. If the wrong pass hits the back of the net, you've just gifted a goal to the opposition. It happens in real life, so we've improved Save the Moment to make sure that doesn't happen in EA SPORTS FIFA 20.

Improved AI

Your opponent will always be a willing and willing participant in this new FIFA experience, and their bc9d6d6daa

What's new in Fifa 22:

- **Orientation:** Switch to a 4:3 aspect ratio for PC, but don't worry, for consoles, you'll still get that full side-to-side and up/down resolution!
- **AI CONTROLLER SUPPORT:** You can now use an Xbox 360 or Xbox One gamepad as an input device for PC in the game. Just plug in your gamepad and enjoy all of the same gameplay you've always loved with the Move or other buttons. Both Xbox or PC players can run the exact same gamepad configuration: left stick is for movement, right stick is for shooting, and the buttox is for pass/saves/passes/tackles/everything as always on FIFA 18.
- **GROUP ACTIVITY:** Now in the creation of ultimate combos - the new 3v3 and 4v4 groups! Gamers now have the opportunity to create their own, live, competitive groups by simply right-clicking in the creation lobby and having the game sign them in. Groups will be challenged to try and get the highest amount of scores during a lifetime of games.
- **ENEMIES:** More realistic and responsive than ever, new enemy AI allows opposing players to adapt to every move, challenge, and change your opponent is making. The new defence ready AI will counter every move, including off-ball runs that used to be enough to beat them. Starting with large stadiums, now your opposition can reach and run through the central areas of your stadium to get past your defence and attack!
- **CHAMPIONSHIP TIES:** Now winning a match in your favourite club's national league cup count towards your championship match standing. Standings are updated at the end of every cup game to show wins, draws, and defeats in those matches.

-
- **AWAY SEASON:** The new away kits were designed to support fans going to away matches in style. If you're a Premier League away fan, it's all in the kit and the atmosphere. Fans from the
